Introduction

How It All Started

This wasn't planned.

One night, I just wanted some background noise while working late.

I searched for "rain sounds for focus," clicked on a 3-hour loop, and let it play.

A few days later, I noticed that video had millions of views and realized: someone was earning ad revenue from that — on a video with no talking, no face, and barely any editing.

That was the lightbulb moment.

These videos were:

- **Evergreen** — rain, fire, and music loops will always have demand.
- **Global** — no language barrier. Any human on earth can understand it.
- **Massive watch-time machines** — people let them run for hours.

So I tried it myself.

I downloaded a free rain sound, paired it with a 1080p window-rain stock video, looped it to 3 hours, and uploaded it as "**Rain & Fireplace Sounds – 3 Hours.**"

24 hours later, that simple video had **3,872 views** and made **\$22.46** from ads. I was all in.

On the next page, I've added the **EXACT videos that are making money right now** as we speak.

It's just insane how simple it is to make money on YouTube with this method.

Real Time Example

That's right.

This video is 10 years old and is **still being watched continuously, even right now.**

This 3 Hour video has over **227 million views and 1.5 million likes.**

Let's Build One For Yourself.

OK, so now you know the method and how it works.

Now you may be asking, how the hell will I find those sounds and simple video visuals?

You can find them and use them **FOR FREE**.

Yup, You can find **Ambient Sounds and Royalty Free Music For zero cost**.

Step-by-Step Method

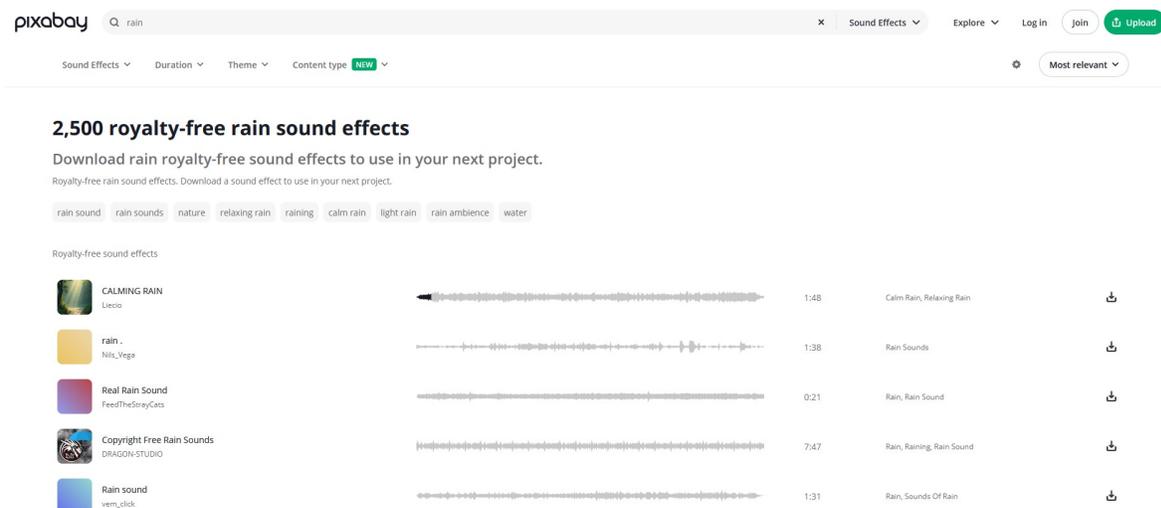

Step 1 — Pick a Sound

Find royalty-free audio from free libraries from:

Pixabay.com
Freesound.com

Choose clean, high-quality recordings.

As you can Pixabay.com have over 2,500 royalty free rain sound effects. I chose the first one:

The screenshot shows the Pixabay website interface. At the top, there is a search bar with 'rain' entered. Below the search bar, there are several filters: 'Sound Effects', 'Duration', 'Theme', and 'Content type' (with a 'NEW' badge). A 'Most relevant' dropdown menu is also visible. The main content area displays '2,500 royalty-free rain sound effects' and a list of search results. The first result is 'CALMING RAIN' by Licco, with a duration of 1:48. Other results include 'rain - Nils_Vega' (1:38), 'Real Rain Sound' (0:21), 'Copyright Free Rain Sounds' (7:47), and 'Rain sound' (1:31). Each result includes a small thumbnail, a waveform, and a download icon.

Let's download the sound.

Great. This will work for our example.

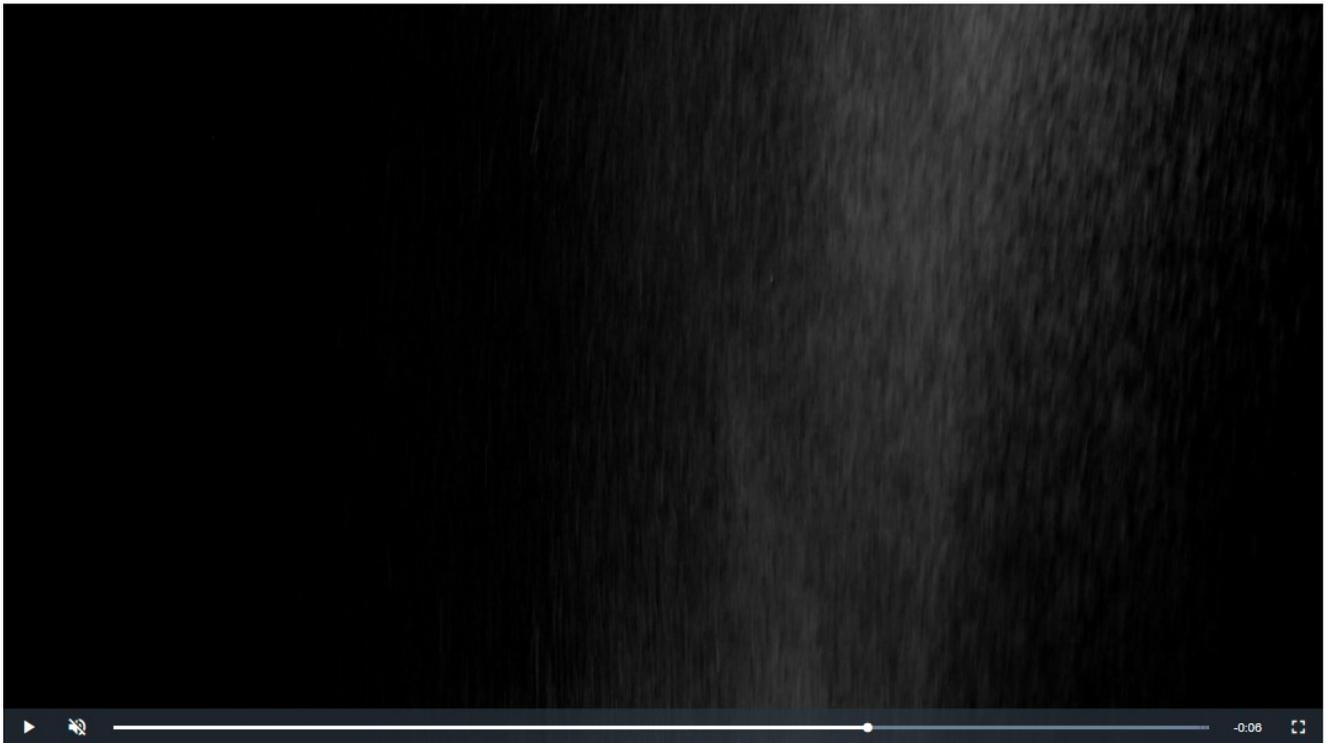

Step 2 — Find a Visual Loop

Grab free 1080p or 4K video loops from stock sites (Pexels, Pixabay, Mixkit).

Or use AI-generated still images with slow pan/zoom effects.

I chose this rain video from pixabay.com:

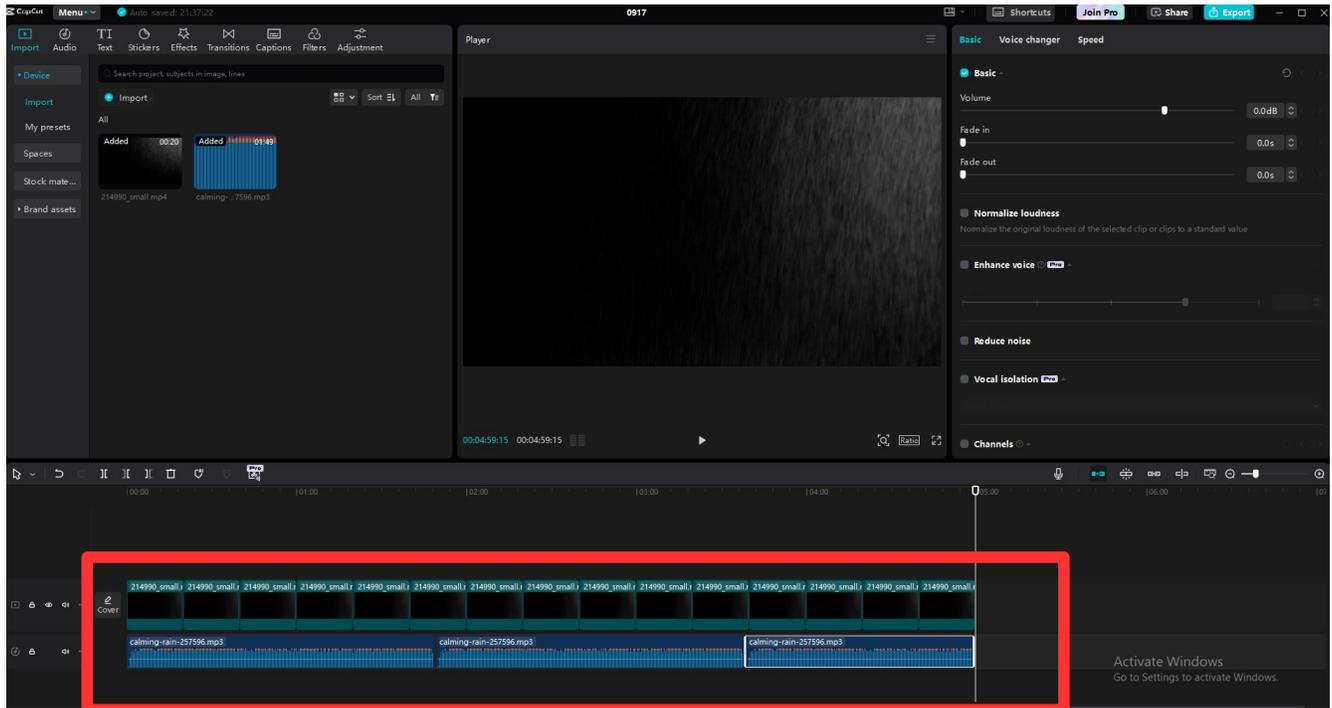

<https://pixabay.com/videos/rain-water-raining-nature-overlay-214990/>

Step 3 – Loop Them Together

Use any free editor (CapCut, iMovie, DaVinci Resolve, Premiere Rush). Duplicate the audio until you hit the target length (1h, 3h, 8h).

I used CapCupt:

As you can see in the above screenshot, I have duplicated the rain audio 3 times, and also duplicated the rain visual.

Make it at least 30min. The more the better, because you will be able to show more ads, which is equal more ad revenue.

Step 4 – Export

Render in MP4 (1080p), high bitrate audio (256–320 kbps), smooth fade-in/out.

Here's life example that I just made:

<https://www.youtube.com/watch?v=qY4tU3ra4fg>

Step 5 – Title & Thumbnail

Make clean, aesthetic thumbnails and SEO-friendly titles:

- “Rain & Fireplace Sounds – 8 Hours – Deep Sleep Ambience”
- “Lo-Fi Beats for Study – 3 Hour Loop”
- “Ocean Waves – 10 Hours – Sleep Background Noise”

Use AI (ChatGPT) to come up with SEO-friendly titles.

Step 6— Upload Consistently

This is the key with this method. SCALE.

Batch-produce 5–10 videos, upload weekly or twice a week. The more videos, the bigger the library. The more views and the more ad revenue.

How Do I make Money?

YouTube Ad revenue (main income stream).

But to qualify, you'll need at least 1,000 subscribers and 4,000 watch hours.

YouTube Ad revenue is when you get paid for views on Youtube.

If you nail the niche, due to long videos, you will be able to reach those 4,000 watch hours rather fast. BUT YOU NEED TO UPLOAD A LOT OF VIDEOS!

To create one video, you will spend ~10-15 minutes.

So upload them as much as you can.

However, before you qualify, you can use Amazon Associates Program to make money offering products on Amazon.com: headphones, cozy lights, meditation aids and more. Real products.

The screenshot shows an Amazon product page for the EKSA 2.4GHz Wireless Gaming Headset. The page includes a navigation bar with the Amazon logo, a search bar containing 'gaming headphones', and a 'Get Link' button highlighted with a red box. The product title is 'EKSA 2.4GHz Wireless Gaming Headset for PS5, PS4, PC, Switch, Mobile, Mac, Bluetooth 5.3 Gaming Headphones with Detachable Microphone, RGB, 30ms Latency, 50H Battery, Stereo Sound Headset for Xbox'. The price is '\$39.99', which is also highlighted with a red box. The product image shows a black gaming headset with RGB lighting. The page also displays shipping information, a 'Buy Now' button, and a coupon for 15% off.

So this is a gaming headphones.

If you don't have an amazon associates account. Just google "Amazon Associates Program". The last time I checked they approve immediately.

And they allow affiliates links in the Youtube description box.

3 Ways to Promote Affiliate Links in Faceless Videos

1. Pinned Comment CTA (Most Effective)

Add a pinned comment like this:

“Love this cozy vibe? I made a list of my favorite headphones, lights, and speakers here ? [affiliate link]”

This works because viewers scrolling through comments will see it first.

2. Description Box Call-to-Action

Put a short, friendly line right after your SEO keywords in the description:

“For the best sleep experience, I recommend these noise-canceling headphones & cozy lights: [link]”

Keep it minimal and right at the top so it shows without clicking “Show More.”

3. On-Screen Subtle Text Overlay (Optional)

If you want to be extra smart:

- Use a **tiny, subtle lower-third text** for the first 10–15 seconds of the video:

“For my favorite cozy lights & sleep headphones → link in description ?”

This keeps it classy, non-intrusive, and people still notice.

How Do I SCALE and Make More Money?

1. Duplicate content in other languages (titles/descriptions only)!

Simply go to AI (ChatGPT) and tell them to translate from english, to let's say, Spanish.

Translate To Spanish, no english: "Rain & Fireplace Sounds – 8 Hours – Deep Sleep Ambience"
"Lo-Fi Beats for Study – 3 Hour Loop"
"Ocean Waves – 10 Hours – Sleep Background Noise"

"Sonidos de lluvia y chimenea – 8 horas – Ambiente para sueño profundo"

"Lo-Fi Beats para estudiar – Bucle de 3 horas"

"Olas del mar – 10 horas – Ruido de fondo para dormir"

Many Youtubers will compete for English speaking countries, but if you SCALE to other languages, you can make more than with your English videos.

2. Create more Youtube accounts:

Go [here and create more accounts](#) in different niches.

Why This Works

- **No voice, no face:** anyone can do this.
- **Evergreen demand:** rain, study music, and meditation will never go out of style.
- **Passive growth:** once uploaded, videos earn 24/7.
- **Global audience:** works in any country, no translation needed.

You don't need to speak, show your face, or spend hours editing. You just build a library of digital ambience assets that keep paying you — literally while you sleep.

Results

After 3 months and 30 videos, I hit **\$1,027/month** in ad revenue. Today, even with no narration, I average **\$10,942–\$12,347/month** — fully passive.

And the best part? My first video from over a year ago still gets thousands of views every week.
