Okay, so this is kind of wild.

Last week, I was sitting on my couch, just scrolling through my feed, half-watching random stuff while sipping my coffee.

I came across this idea… not even sure what you'd call it, just something that made me go, *"Huh. That's interesting."*

I decided to mess around with it, mostly for fun. I wasn't expecting much—just curious to see if it could work.

By the next morning, I logged in to check my accounts, and there it was: **$43.75**.

I didn't even believe it at first. I refreshed. Yep. Still there.

The day after that, I tried it again, slightly tweaking things, and the number went up. **$100 by the end of the day.**

I started keeping track. Each day, it added a little more.

- Day 3: $93.75
- Day 4: $106.25
- Day 5: $98.50

By the end of the week, I had a bunch of these little setups running quietly in the background. I wasn't actively working on them all day—most of the time, I just checked in, made a tiny adjustment here and there.

What's cool is that it's not complicated. I didn't have to build a website. I didn't run ads. I didn't even have a following.

It's the kind of thing where you set it up once, let it do its thing, and come back later to see some actual results.

I won't lie, it feels pretty good waking up and seeing that little notification of commissions hitting your account. It's motivating enough to want to keep experimenting, keep testing, keep posting.

By the end of the first week, I was consistently pulling in around **$100/day**,

without stressing over algorithms or analytics.

The best part? It's repeatable. Once you figure out the rhythm, you can keep adding more, tweaking small things, and steadily stacking that daily cash.

It's simple, it's low-pressure, and it works quietly in the background.

Honestly, I've tried other things before, all complicated funnels and big launches.

This? It's just smart, practical, and actually feels… easy.

For this to work you need:

- Sign up to Amazon Associates Program (Free)
- Sign up to ChatGPT (Free)
- Sign up to ElevenLabs (Free)
- Have Instagram account

Step 1: Pick a Trending Self-Help Book on Amazon

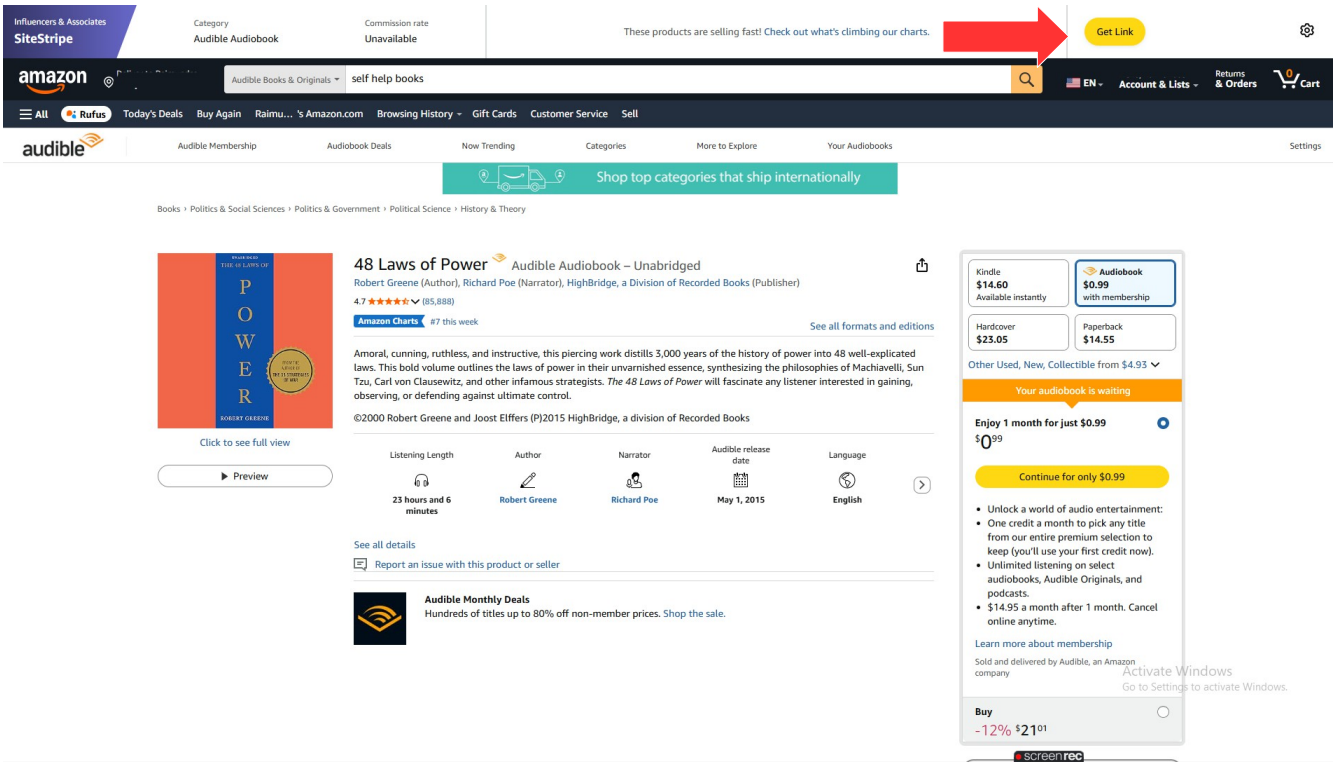
The first thing I do is hop into **Amazon**.

I'm looking for **self-help books that are currently trending**—think productivity, mindset, personal growth.

You want something with:

- High reviews (4+ stars)
- Good number of ratings (shows social proof)
- Low-medium price ($10–$20 works best for affiliates)

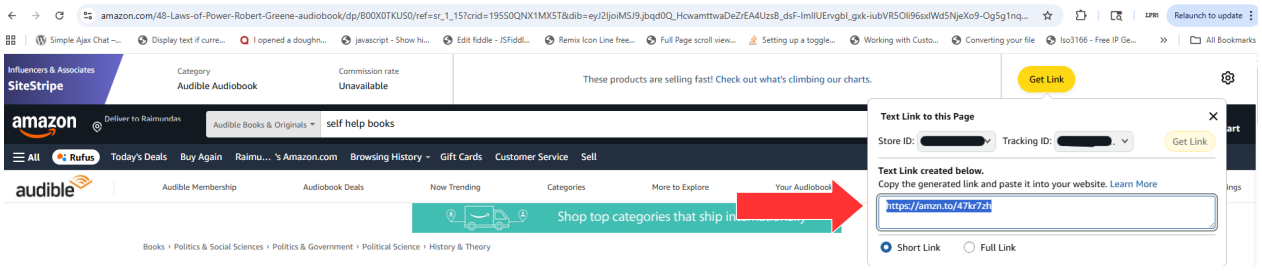
Let's browse:



I found this Book.

Looks good.

Now click on “Get Link” to grab your affiliate link.



Now you can promote this book and make money as an affiliate.

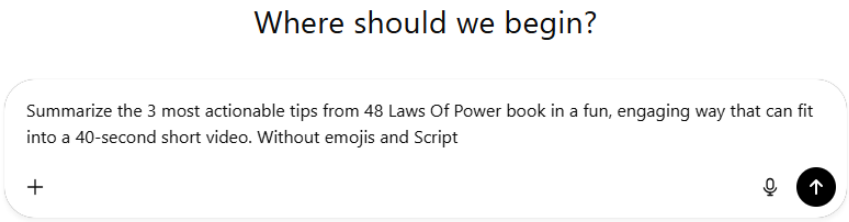
Step 2: Generate Script with ChatGPT (AI)

Next, I open up **ChatGPT (free version)**.

I ask it to summarize the **top 3–4 key lessons** from the book into a **20–30 second script** that's punchy and scroll-stopping.

Example prompt I use:

> "Summarize the 3 most actionable tips from 48 Laws Of Power book in a fun, engaging way that can fit into a 40-second short video. Without emojis and Script"



In less than a 20 seconds, I have a script ready to go:

"*First, **never outshine the master**—make those above you feel secure while you quietly rise.*

*Second, **say less than necessary**—mystery creates power, and silence makes people lean in.*

*Third, **court attention at all costs**—fade into the background and you're forgotten, but bold moves make you unforgettable."*

Don't forget to add Intro and Outro:

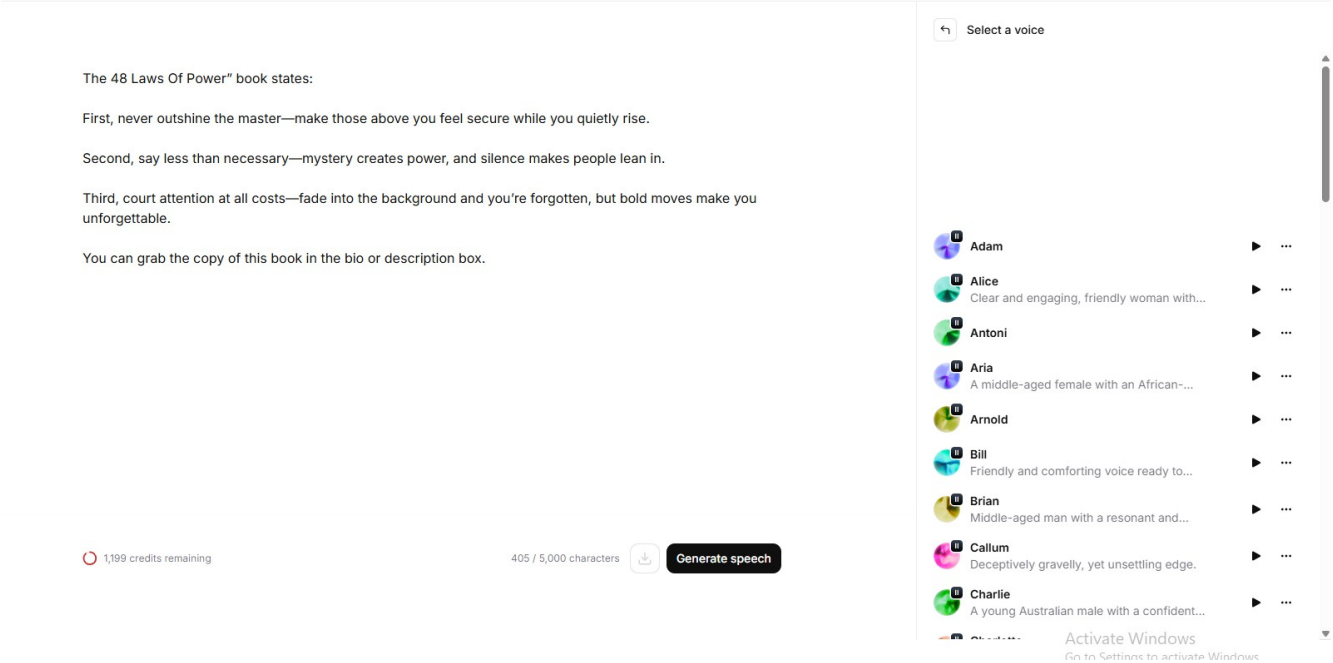
Intro: *"The 48 Laws Of Power" book states:*

Outro: *"You can grab the copy of this book in the bio or description box."*

Step 3: Turn the Script into AI Voiceover

I head over to **ElevenLabs (free tier)**.

I paste the script in, pick a natural-sounding AI voice, and hit generate.

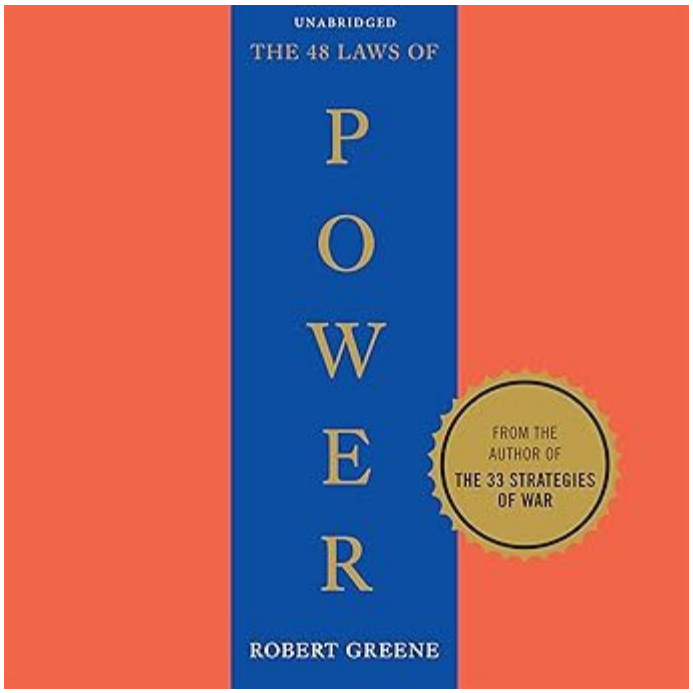


Boom. I now have a professional-sounding narration ready in seconds.

No mic. No recording. No editing headaches.

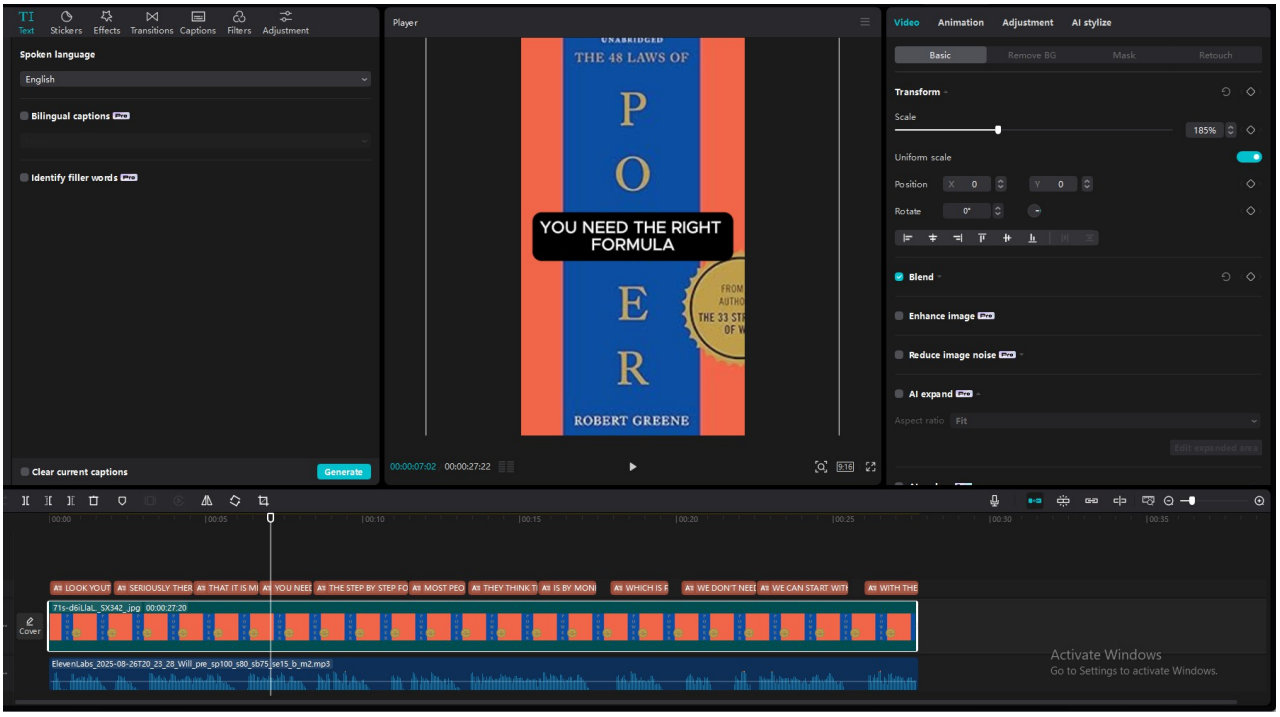
Step 4: Create the Video

Next, I save the book cover from Amazon and use it as my main picture.



Then I open **CapCut (free version)** and start editing.

- I layer the **AI voiceover** on top.
- Add **text overlays** highlighting key points.
- Drop in a **trending background track** if possible.
- Adjust clips so the video stays tight and punchy.
- Also, generate auto captions



Keep it short—**20–30 seconds** is perfect. People scroll fast, so every second counts.

CapCut makes it super easy to trim, add transitions, and make the video look polished without any fancy software.

You can find the **LIVE example here**: https://youtube.com/shorts/7aj4LYHiqbw

Once the video is ready, it’s time to scale it across all platforms.

Step 5: Upload Across Platforms

Here’s where scaling comes in. I don’t just post to Instagram. I post the same video to:

- **Instagram Reels**
- **TikTok**
- **YouTube Shorts**
- **Pinterest Video Pins**
- **Linked In**

Same content. Different platforms. More eyeballs.
Make sure your affiliate link is **easy to find**:

- Bio on Instagram and TikTok
- Description on YouTube Shorts
- Pin description on Pinterest

Step 6: Optimize for Views

Some quick tips I follow:

- Use **trending audio** where possible.
- Add **captions that spark curiosity**.
- Include 2–3 **relevant hashtags**.
- Post during peak hours for each platform (evenings usually work).

Step 7: Watch Commissions Roll In

This is the fun part.

Day 1: A few clicks trickle in.

Day 2: Traffic ramps up.

Within 24–48 hours, a single video can generate **15–20 book sales**, depending on the platform and book.

Example:

- Book commission: $6.25
- Sales: 16
- Earnings: $100/day

Step 8: Scale by Repeating and Batching

Once you see it works, scale it:

1. Pick 2–3 trending books each week.
2. Generate scripts in ChatGPT in batches.
3. Make voiceovers in ElevenLabs.
4. Batch-edit short videos.
5. Upload across all four platforms.

Even posting 3–4 videos a week can give you **$100/day consistently**.

Step 9: Track and Tweak

Check your affiliate dashboard to see:

- Which books are selling best
- Which platforms are driving the most traffic
- Which video styles perform better

Tweak scripts, visuals, and captions based on what's working.

Step 10: Keep it Low-Stress

The beauty of this system:

- No face required
- No long videos
- No fancy editing
- No website needed

It’s just: **pick a book, generate script, AI voiceover, short video, post, repeat**.

Do this consistently across **Pinterest, TikTok, Instagram, and YouTube**, and you’ve got a quiet, scalable stream of affiliate income.

I hope you enjoyed this method!
